Although most design lovers know of Muller Van Severen for their furniture, the design couple's story actually kicked off with the conception of these hanging lamps. "It all started out of necessity", Hannes explains. "We were working in our new home which is an old house. Above the table there wasn't a socket in the ceiling to stick a lightbulb in, so we designed a lamp that could hang from the wall". Like all Muller Van Severen's furniture, the lamps add a sober but colorful line to the interior. On one hand the sober design doesn't draw too much attention, on the other hand its playful character does tingle the eye. The lamps create space rather than filling it up.

care
instructions

Stain removal: For quick removal of contaminants on aluminium surfaces, apply a glass cleaner with a clean, soft cloth and subsequently wipe the surface dry with a soft cloth. Powder-coated surfaces should be cleaned with aqueous solutions made from pH-neutral (pH 5-8) detergents or cleaning products and soft, non-abrasive cloths, rags or industrial cotton batting. Always clean metal surfaces gently and without scrubbing so that the surface is not scratched. Never use cleaners containing granular substances, acetic acid or citric acid.
